

# Steel Drum Association of CPF

---

## Ladies and gentlemen, colleagues in the steel drum industry:

It is a great honor for China to host the 10th AOSD International Conference.

AOSD, Association of Asia-Oceanic Steel Drum Manufacturers, opens International Conference every three years. We sincerely welcome colleagues of steel drum industry from countries and organizations around the world to attend this international conference.

For steel drum industry around the world, when the time comes to 2019, it is not the same circumstances as before. This year, the focus of the international conference is not only on the aspects of technology and technological innovation always concerned by the steel drum industry, but also on the world's common issue - **Environmental Protection and Social Responsibility**, which is also the new mission of steel drum industry in the future. Only by realizing and understanding the new mission can our steel drum industry be as solid and sustainable as itself.

The China Packaging Federation (CPF), as the organizer of this international conference, is the largest all-category packaging industry association in China. It holds 24 professional committees that subdivide in packaging, and the Steel Drum Association is one of them, as well as the Paper Products Packaging Committee, the Glass Packaging Committee and so on. This international conference is co-organized by the Steel Drum Association, which not only has those professional industry associations to organize and coordinate, but also has the full support of China Packaging Federation.

Finally, we hope that this conference can be successfully held through our unremitting efforts, and we cordially invite you to attend, to feel China, to experience the steel drum industry of China together.

Thank you!

———— China Packaging Federation and Steel Drum Association
